Vurdering af egen indsats

- Jeg har brugt ReactJS og Tailwindcss
- Jeg havde mange udfordringer med stylingen, og en sejr var at få produktsiderne til at virke som de skulle.
- Valgte og prioritere mere på backenden.

Fremhævelse af punkter til bedømmelse

- Til min mundtlige eksamen vil jeg gerne fortælle om den funktion, som bliver brugt til at opdele produkternes kategorier.
